

Garden Planner & Tracker by Jahascow: "Tomato, Baxter's Bush Cherry" Log Entries

Date	Topic	Where	Quantity	Notes
5/28/2025	Direct Sow	Main Garden	1.0	Replaced one location of the red swiss chard on the street/wood fence side, where red swiss chard did not take. This for a fall garden harvest of cherry tomatoes
5/30/2025	Amendments	Wicking bucket	3.0	added blood meal to the tomatoes in the wicking buckets as they do have fruit but their foilage is lighter green and less than in ground plants. Seeing if the added nitrogen will help
05/30/2025	Seed start	Garage	1.0	
2025/06/06	Harvest	Main Garden	1.0	4.8 ounces 4 tom from bucket container and three from a main garden plant
2025/02/07	Seed start	Garage	5.0	Started these out in the ~6oz planting plastic cups from the dollar general with about 1 inch seed starting mix (hydrated) compressed on bottom and 1/8 inch of seed starting mix (hydrated) placed on top. Transplanted to actual Garden 3/11/2025 acutal quantity unknown but theorized based on production visibility in june that we had two that went to main garden and three in container buckets Recommend starting seeds 1-2 weeks eariler in the garage.
2025/06/11	Harvest	Wicking bucket	1.0	.5 ounce
